

Biochemist

Organisation: Sense Biodetection Limited.

Location: Culham Science Centre, Oxfordshire, UK.

Job Title: Biochemist.

Company: Sense is a molecular diagnostics start-up company developing handheld diagnostic tests in the fields of infections and oncology. The company applies its novel, proprietary technologies to discover and develop new assays and diagnostic tests for a range of research and clinical applications. Founded by an experienced leadership team, Sense has ambitious plans to grow from its strong foundations and become a leader in the field. The company is currently expanding its R&D operations and consequently has a new position available for a motivated science graduate to join the team.

The Role and Responsibilities: This role is an exciting opportunity for an ambitious graduate scientist to contribute to the development and growth of an innovative molecular diagnostics company. The successful candidate will perform a crucial role in developing and validating novel molecular assays for integration into diagnostic tests and devices and producing and characterising the associated reagents. The successful candidate would work in close collaboration with the existing laboratory research team and design engineers in a multidisciplinary environment.

Applicant: Candidates should hold an undergraduate degree in a relevant discipline and have experience of standard molecular biology/biochemistry techniques (e.g. nucleic acid methods, cloning, PCR, protein expression & purification). Prior experience working in research and development for a company in the life sciences sector would be an advantage. Direct experience in the field of molecular diagnostics would be an advantage. More broadly, we are looking for a team player with the initiative, flexibility, drive and enthusiasm to achieve goals and exceed expectations in a dynamic start-up environment.

To Apply: Please send your CV including full details of educational qualifications via email to careers@sense-bio.com. Applicants from recruitment consultants are not accepted. Applicants must have the right to work in the UK.

Closing Date: 25th Aug 2017.

Package: Competitive salary, share options and bonus.
